

Sheffield Steelkings

Established in September 2014, and with only a handful of players, the

Steelkings were a small but determined team with the aim of competing against the other teams from around the UK in the (then) British Sledge Hockey League.

From these humble beginnings the Steelkings have gone on to become the UK's largest para ice hockey team. They have won the British league once, and playoffs three times.

In the British league the Steelkings now have two teams, the Steelkings and SteelStings (the B-ee team)

The Steelkings are a founder member of the NEPIHL, and have won the tournament twice, in 2022 and 2023.

Amsterdam Tigers

The Amsterdam Tigers para ice hockey team began in 2016, after the Huskies team disbanded. When they formed they only had two dedicated players, and had to join with the Dordrecht Polar Bears to be able to play.

Now, the Tigers have three full lines of players and are still growing rapidly. Amongst the growing numbers are several junior

players. The Tigers hope to soon have a dedicated line for their kids, to help foster and grow future para ice hockey stars.

The Tigers are a founder member of the NEPIHL, originally playing in a combined team with Dordrecht. In 2024 they competed in the tournament under the Tigers banner for the first time.

Antwerp Phantoms

The Phantoms were established in 2015 as Belgium's first ever para ice hockey team.

The team was founded by Dave and his wife Tamiko. At first Dave was alone on the ice as the club's only player, but now ten years later the Phantoms have a full squad of players, and the club is an

established member of the Royal Belgian Ice Hockey Federation.

The Phantoms aim to promote and expand para ice hockey, to encourage more people to participate in the sport.

On the ice they develop their athletic abilities together, and off the ice they build a strong team relationship.

The Phantoms are a founder member of the NEPIHL, and hosted

the first ever edition of the competition in 2022.

They have twice won bronze in the competition, in 2023 and 2024.

Dordrecht Lime Kings

(with the Nijmegen Devils)

Originally called the Polar Bears, the team now goes by Lime Kings due to a sponsorship deal with fruit company FMI.

The Lime Kings are The Netherlands' only independent para ice hockey team.

For the NEPIHL they are joined by players from the Para Nijmegen Devils, The Netherlands newest para ice hockey team. The Devils were founded in 2021 by the

team's netminder Oscar der Kunder, under the umbrella of the AHOUDE Devils Nijmegen. Alongside the Amsterdam Tigers the Lime Kings and Devils make up the three teams in the Dutch Para Ice Hockey League.

The Lime Kings are a founder member of the NEPIHL; they hosted the competition in 2023, and won bronze in 2022.

Jyväskylä Sisu

Formed in 2017, Sisu play their home games in the Buugi Sports Centre in the Finnish city of Jyväskylä, the capital of Central Finland.

The team formed due to the demand for more opportunities for junior players. Since their formation the team has continued to

grow, and now includes many of the parents of their original players. Despite their growth Sisu continues to strongly support

the development of their junior players; several of whom have gone on to compete for Finland in international competitions.

In 2022/23 Sisu won the Finnish Para Ice Hockey League for the first time.

Sisu joined the NEPIHL in 2024, and won the tournament on their first attempt.

Les Bisons de Neuilly-sur-Marne

Les Bisons de Neuilly-sur-Marne have played hockey in the Seine-Saint-Denis area of France since 1974.

In 2020 they decided to expand their club to include a para ice hockey team. Les Bisons Para Hockey played their first official game in 2022 against the Rouen Dragons.

Since their formation they have competed every year in the French league, making it to 2 league finals and one Coupe de France final.

Les Bisons joined the NEPIHL in 2023, winning silver in their first tournament, and hosted the competition in 2024.
